

CLAINER VENTURA
FULL STACK SOFTWARE ENGINEER – PROGRAMMER
New York N.Y
Email: v.clainer11@gmail.com
Portfolio: www.clainerdev.com

SUMMARY:

Results-driven and highly creative Full stack Software Developer with a strong background in web development, UI/UX design, customer service, and digital media production. Passionate about building modern, user-focused digital experiences through clean code, problem-solving, and innovative design. Seeking an opportunity to contribute technical expertise, communication skills, and a multidisciplinary creative mindset to a forward-thinking company while continuing to grow as a developer and technology professional.

EXPERIENCE:

Full Stack Developer |

Universal Limitless LLC (Remote) | 2020 – Present

- Developed responsive full-stack web applications using HTML, CSS, JavaScript, React, and MySQL with a focus on performance, scalability, and user experience.
- Designed and implemented modern UI/UX interfaces that improved usability, accessibility, and cross-device responsiveness.
- Built and managed database-driven systems including POS platforms, inventory management tools, customer workflows, and business operation solutions.

Front Desk / Concierge

Red Apple Real Estate, The Margo (Brooklyn, NY) | 07/2021 – 07/2023

- Delivered exceptional guest experiences by providing professional front desk support, personalized assistance, and efficient problem resolution in fast-paced environments.

Front Desk / Concierge

FirstService Residential, American Copper Towers (NYC) | 05/2018 – 06/2020

- Managed high-volume phone calls, visitor check-ins, appointments, and inquiries while maintaining a polished and welcoming atmosphere.

Front Desk / Concierge

Jardan Management Corp. (NYC) | 10/2015 – 05/2018

- Coordinated daily front desk operations, ensuring smooth communication between clients, staff, management, and service teams.

EDUCATION:

- Code Academy (2019–Present): Frontend courses (HTML, CSS, JavaScript, MySQL, Git)
- Class Central (2019–2024): learning via IBM/Google/Coursera/Udemy tracks
- (BMCC): 65 credits toward B.A. (Criminal Justice)

Cover Letter

Dear Hiring Managers,

I am excited for the opportunity to join your team. With a strong background in Full stack Software Development, UI/UX design, customer service, and digital media production, I bring a unique combination of technical expertise, creativity, and communication skills that allow me to create engaging and efficient digital experiences.

Over the years, I have developed experience building responsive websites and interactive applications using HTML, CSS, JavaScript, React, and MySQL, Git, GitHub and others, while continuously improving my understanding of modern development practices, performance optimization, and user-centered design. In addition to my technical skills, my experience in customer service and front desk operations has strengthened my ability to communicate effectively, solve problems under pressure, and maintain professionalism in fast-paced environments.

I am passionate about technology, innovation, and creating solutions that make a real impact. Whether collaborating with teams, managing projects independently, or learning new technologies, I approach every opportunity with dedication, adaptability, and a strong work ethic. My multidisciplinary background in development, design, video production, and digital branding allows me to think creatively while staying focused on functionality and user experience.

I am eager to contribute my skills, grow professionally, and become a valuable asset to your organization. Thank you for your time and consideration. I look forward to the opportunity to further discuss how my experience and passion align with your team's goals.

Sincerely,

Clainer Ventura
